VOLUNTEER REQUEST TO RELEASE VOLUNTEER STATUS INFORMATION

Local PTAs and booster clubs are often recognized as partners with their affiliated schools and the Northshore School District (NSD).

It may be beneficial to students and families for the district to have permission to share a volunteer's approval status with an organization that is serving our students.

The district does not share private information with volunteers or volunteer groups. If you would like your volunteer status to be shared with a volunteer organization, please complete the information below.

Name _____
Phone _____
Email _____

I request that the Northshore School District release the results of my Volunteer Approval Status (Level 1 or Level 2 approved, or not approved) to the following organizations:

_____ All volunteer organizations associated with the school(s) my child(ren) attend

_____ All volunteer organizations requesting this information

_____ Specific volunteer organizations as listed

I understand this release of information is effective until my volunteer status expires. At any time, I may contact my local school or the NSD Communications Office and revoke permission to share my status with volunteer organizations.
